PROFILE

Motivated and ambitious Computer Science graduate with hands-on experience in web development and software systems. Proficient in C#.NET, HTML, CSS, and SQL. Seeking a professional environment to apply my technical skills and contribute to a forward-thinking team.

WORK EXPERIENCE

Bits and Bytes Services

Web Developer

- Developed and maintained websites, including a client car rental service website.
- Assisted in the full lifecycle of web development projects, from concept to deployment.

Netleap IT Training and Solutions

Web Developer Intern

- Gained practical web development experience during a 6-month internship.
- Enhanced skills in front-end technologies including HTML, CSS, and Bootstrap.

Ntech Solutions

.Net Intern

- Completed a 3-month internship focused on C#.NET.
- Contributed to the development and maintenance of software systems.

PROJECTS

BITS AND BYTES SERVICES WEBSITE

- A professional website developed for Bits & Bytes Services

CAR RENTAL CLIENT WEBSITE

- A client website built for a car rental service, demonstrating real-world web development and client-facing project experience.

EVENT MANAGEMENT SYSTEM

- A digital tool that streamlines the organization & execution of events, featuring event registration, customer management, and post-event analysis.

JOBSEEKER

- An online job searching platform developed with HTML and CSS, allowing candidates to search for jobs and companies to post jobs.

MEDICAL STORE MANAGEMENT SYSTEM

- A software solution for medical stores to manage stock, sales, and customer/employee details.
